Art Unit: 1732

DETAILED ACTION

1. Claims 3, 4, 6, and 12 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 3, 4, 6, and 12 are indefinite because they do not further limit the final product of the product by process base claim. For examination purposes, product by process claims are product claims.

Clarification and/or correction is required.

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

3. Claims 1-2 are rejected under 35 U.S.C. 102(e) as being anticipated by Wu (USPN 5908358). It should be mentioned that product by process claims are not limited

Art Unit: 1732

to the manipulations of the recited steps, only the structure implied by the steps. See MPEP 2113. Wu teaches the claimed product by product as evident by col 7, Ins 20-30; and col 9, ln 65-col 10, ln 6.

4. Claims 1-12 are rejected under 35 U.S.C. 102(b) as being anticipated by Cavallaro et al (USPN 5688191). It should be mentioned that product by process claims are not limited to the manipulations of the recited steps, only the structure implied by the steps. See MPEP 2113. Cavallaro et al teach the claimed product by process as evident by col 4, Ins 1-46; col 5, Ins 43-48; and col 6, Ins 50-64.

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Maruoka et al (JP 10-33716) teach molding a golf ball by causing the core to swell up by a volume ratio of 1.001-2.000.
